ABOUT ME

Motivated developer with strong Java fundamentals, problem-solving skills, and an interest in software development and cybersecurity. Passionate about learning new technologies and building efficient real-world solutions.

EDUCATION

2023 - 2027	Bachelor of Engineering
VSB Engineering college	Domain : Computer and Communication Engineering
	CGPA : 7.97
2022 - 2023	HSC
Sri Krishna Higher Secondary School	PERCENTAGE :72%

INTERNSHIP AND PROJECT

INTERNSHIP - Media Wave Technologies,

I learned full stack development using Java, HTML, CSS, and MySQL. With these skills, I developed several projects that strengthened my practical knowledge

PROJECT

Crop Monitoring

Developed a Crop Monitoring System using NDVI and satellite imagery to analyze vegetation, assess crop health, and detect stress levels through remote sensing and data visualization techniques for precision agriculture.

RBAC-DocLeakDetector

Developed an RBAC-based system using Java to manage user roles, secure authentication, and prevent unauthorized document access, improving data security and reducing security risks.

Gatepass Management

Developed a Gate Pass Management System using Java and Spring Boot with microservices architecture, enabling digital pass requests, QR-based verification, real-time tracking, and secure role-based authentication.

SKILLS

- | | | | |
|-------------|--------------|---------------------------|---------------|
| • CORE JAVA | • HTML,CSS | • LEADERSHIP QUALITY | • TEAM |
| • FLASK | • JAVASCRIPT | • EFFECTIVE COMMUNICATION | COLLABORATION |

CERTIFICATIONS

- | | |
|--|---|
| • Programming in Java (NPTEL Elite) | • Cyber Security (Cisco) |
| • DSA using Java (NPTEL) | • Virtual Internship Certificate (Infosys) |
